

## ■ Company Overview

|                          |  |
|--------------------------|--|
| Trade name               | NIKO Manufactory Co., Ltd.   |
| Locations                | <p><b>【Head office】</b><br/>                     1-21-19 Suehiro, Kawaguchi City,<br/>                     Saitama Prefecture, Japan, 332-0006<br/>                     TEL 048-222-1381<br/>                     FAX 048-222-1382</p> <p><b>【Headquarters, Iwatsuki Plant】</b><br/>                     3-1-1 Funai, Iwatsuki-ku, Saitama City,<br/>                     Saitama Prefecture, Japan, 339-0042<br/>                     TEL 048-797-2000<br/>                     FAX 048-791-7715<br/>                     E-mail seahorse@nikoss.co.jp</p> <p><b>【Hirata Plant】</b><br/>                     74-3 Okashiwagi Yomogida Shinden, Hirata Village, Ishikawa-gun,<br/>                     Fukushima Prefecture, Japan, 963-8201<br/>                     TEL 0247-55-3266<br/>                     FAX 0247-55-3267<br/>                     E-mail hirata@nikoss.co.jp</p> |
| Buildings and facilities | <p><b>【Iwatsuki Plant】</b><br/>                     Plant (steel frame): 3,242.59 m<sup>2</sup>,<br/>                     site area: 4,567.78 m<sup>2</sup></p> <p><b>【Hirata Plant】</b><br/>                     Plant (steel frame): 1,200 m<sup>2</sup>,<br/>                     site area: 30,000 m<sup>2</sup></p>   |
| Established              | July 1, 1955   |
| Capital                  | 82 million yen   |
| Executive                | Chief Executive Officer: Yoshiaki Sakaguchi<br>Executive Vice President and head of finance: Naoko Sakaguchi<br>Director and head of Hirata Plant: Kazuyoshi Shiraishi<br>Company Executive and head of production control : Munekatsu Tanaka  |
| Number of employees      | 105  |
| Financial institutions   | Aoki Shinkinbank, Asahi Branch<br>Saitama Resona Bank, Iwatsuki Branch<br>The Bank of Tokyo-Mitsubishi UFJ, Akabane Branch<br>Mizuho Bank, Kawaguchi Branch  |
| Business operations      | <p><b>【Precision sheet metal machining, Press machining, Machining operations, Design, Assembly】</b><br/>                     Aerospace Equipment, Defense equipment,<br/>                     Communications equipment, Currency changing machine,<br/>                     Various types of OA equipment, Vending machines,<br/>                     Medical equipment, Precision sheet metal machining such<br/>                     as for ship radar</p>  |

## ■ Company History

|                 |   |
|-----------------|---|
| November 1953:  | Company established   |
| July 1955:      | Reorganized as NIKO Manufactory Co., Ltd. with capital of 500 thousand yen  |
| September 1963: | Capital increased to 5 million yen  |
| September 1965: | Capital increased to 8 million yen  |
| September 1968: | Capital increased to 10 million yen   |
| March 1969:     | New establishment of Kagamiishi Plant in Kagamiishi-machi, Iwase-gun, Fukushima Prefecture                                    |
| September 1969: | Capital increased to 13 million yen   |
| September 1970: | Capital increased to 20 million yen   |
| September 1971: | Capital increased to 25 million yen   |
| December 1972:  | New establishment of Tokiwa Plant in Tokiwa-machi, Tamura-gun, Fukushima Prefecture   |
| September 1976: | Capital increased to 30 million yen   |
| January 1986:   | New establishment of Hirata Plant in Hirata-mura, Ishikawa-gun, Fukushima Prefecture  |
| September 1987: | Capital increased to 45 million yen   |
| September 1988: | New establishment of first and second Iwatsuki Plants in Iwatsuki City, Saitama Prefecture                                    |
| September 1989: | Capital increased to 50 million yen   |
| October 2000:   | Expansion of second Iwatsuki Plant  |
| June 2001:      | Second Iwatsuki Plant site expanded   |
| June 2004:      | Expansion of Hirata Plant   |
| February 2005:  | JIS Q 9100 conformity achieved at Hirata Plant  |
| March 2007:     | Capital increased to 70 million yen   |
| August 2008:    | Integration of Kawaguchi Plant, first Iwatsuki Plant, and second Iwatsuki Plant; construction of new Iwatsuki Plant completed |
| October 2008:   | Integration of Hirata Plant and Tokiwa Plant  |
| March 2012:     | JIS Q 9100 conformity achieved at Iwatsuki Plant  |
| August 2015:    | Capital increased to 73 million yen   |
| October 2016:   | Capital increased to 76 million yen   |
| September 2019: | Capital increased to 82 million yen   |

## ■ Main Customers

NEC Access Technica, Ltd.  
 NEC Engineering, Ltd.  
 SEN Corporation, an SHI and Axcelis Company

# Main Equipment Possessed

November 20, 2020  
NIKO Manufacturing Co., Ltd.

| Type                                    | Equipment Name  | Number of Units Possessed  |    |
|---|---|--|----|
| Programming equipment                   | CAD   | 6  |    |
|   | Automatic Pro   | 2  |    |
| Machining equipment                     | Sheet metal machining equipment   | Shearing   | 2  |
|   |   | Corner shear   | 2  |
|   |   | Integrated NC turret punch press and laser machine                           | 1  |
|   |   | NC turret punch  | 3  |
|   |   | Fiber laser processing apparatuses   | 1  |
|   |   | BURRY TACK   | 2  |
|   |   | Parallel grinder   | 2  |
|   |   | Press (applied pressure: 12 tons to 300 tons)<br>Hydraulic and Servo Presses | 20 |
|   |   | Robot bender (applied pressure: 100 tons)                                    | 1  |
|   |   | Bender (applied pressure: 25 tons to 300 tons)                               | 16 |
|   |   | Spot welding machine for special manufacturing processes<br>(MIL-STD-6858D)  | 4  |
|   |   | Spot welding machine   | 17 |
|   |   | Stud welding machine   | 2  |
|   |   | Fiber welding system   | 2  |
|   |   | YAG laser  | 1  |
|   |   | Welding machine  | 17 |
|   |   | Electron beam machining tool (vacuum furnace welding)                        | 1  |
|   |   | Tapping machine  | 11 |
|   |   | Ironworker   | 1  |
|   | Grinder   | 2  |    |
|   | Surface grinding machine  | 1  |    |
|   | Crimping machine  | 2  |    |
|   | Pressure-control-type indentation machine   | 2  |    |
|   | Blasting machine  | 1  |    |
|   | Cleaning machine  | 1  |    |
|   | Machine machining equipment   | 5-axis machining center  | 3  |
|   |   | Machining center   | 2  |
|   |   | Y-axis lathe (turning center)  | 1  |
|   |   | Wire electrical discharge machine  | 1  |
|   |   | Lathe  | 2  |
|   |   | Milling machine  | 2  |
|   |   | Bandsaw  | 2  |
| Drilling machine                        |   | 14   |    |
| Inspection equipment                    | Each 3D measuring machine is fitted with non-contact sensors and is suitable for use with computer aided verification | 2  |    |
|   | X-ray inspection system   | 1  |    |
|   | X-ray fluorescence spectrometer (component analysis)  | 1  |    |
|   | Fluorescence Penetrant Inspection System  | 1  |    |
|   | Roundness measuring instrument  | 1  |    |
|   | Blank measuring instrument (infrared red ray)   | 2  |    |
|   | Tension tester  | 3  |    |
|   | Contact resistance measuring instrument   | 2  |    |
|   | Stereomicroscope and similar equipment  | 4  |    |
|   | Oscilloscope  | 1  |    |
|   | Digital torque meter  | 2  |    |
|   | Insulation resistance meter   | 1  |    |
|   | Hue- and color-difference meter   | 1  |    |
|   | Gloss meter   | 1  |    |
|   | Film thickness meter  | 1  |    |
| Digital pressure gauge for leak testing | 1   |  |    |
