

■ Company Overview

Trade name NIKO Manufactory Co., Ltd.

Locations 【Head office】

1-21-19 Suehiro, Kawaguchi City,
Saitama Prefecture, Japan, 332-0006
TEL 048-222-1381
FAX 048-222-1382

【Headquarters, Iwatsuki Plant】

3-1-1 Funai, Iwatsuki-ku, Saitama City,
Saitama Prefecture, Japan, 339-0042
TEL 048-797-2000
FAX 048-791-7715
E-mail info.n@nikoss.co.jp

【Hirata Plant】

74-3 Okashiwagi Yomogida Shinden, Hirata Village, Ishikawa-gun,
Fukushima Prefecture, Japan, 963-8201
TEL 0247-55-3266
FAX 0247-55-3267
E-mail hirata@nikoss.co.jp

Buildings and facilities 【Iwatsuki Plant】

Plant (steel frame): 3,242.59 m²,
site area: 4,567.78 m²

【Hirata Plant】

Plant (steel frame): 1,200 m²,
site area: 30,000 m²

Established July 19, 1955

Capital 82 million yen

Executive Chief Executive Officer: Yoshiaki Sakaguchi
Executive Vice President and head of finance: Naoko Sakaguchi
Director and head of Hirata Plant: Kazuyoshi Shiraishi
Company Executive and head of production control: Munekatsu Tanaka

Number of employees 105

Financial institutions Aoki Shinkinbank, Asahi Branch
Saitama Resona Bank, Iwatsuki Branch
The Bank of Tokyo-Mitsubishi UFJ, Akabane Branch
Mizuho Bank, Kawaguchi Branch

Business operations 【Precision sheet metal machining, Press machining,
Machining operations, Design, Assembly】
Aerospace Equipment, Defense equipment,
Communications equipment, Currency changing machine,
Various types of OA equipment, Vending machines,
Medical equipment, Precision sheet metal machining such
as for ship radar

■ Company History

- November 1953: Company established
- July 1955: Reorganized as NIKO Manufactory Co., Ltd. with capital of 500 thousand yen
- September 1963: Capital increased to 5 million yen
- September 1965: Capital increased to 8 million yen
- September 1968: Capital increased to 10 million yen
- March 1969: New establishment of Kagamiishi Plant in Kagamiishi-machi, Iwase-gun, Fukushima Prefecture
- September 1969: Capital increased to 13 million yen
- September 1970: Capital increased to 20 million yen
- September 1971: Capital increased to 25 million yen
- December 1972: New establishment of Tokiwa Plant in Tokiwa-machi, Tamura-gun, Fukushima Prefecture
- September 1976: Capital increased to 30 million yen
- January 1986: New establishment of Hirata Plant in Hirata-mura, Ishikawa-gun, Fukushima Prefecture
- September 1987: Capital increased to 45 million yen
- September 1988: New establishment of first and second Iwatsuki Plants in Iwatsuki City, Saitama Prefecture
- September 1989: Capital increased to 50 million yen
- October 2000: Expansion of second Iwatsuki Plant
- June 2001: Second Iwatsuki Plant site expanded
- June 2004: Expansion of Hirata Plant
- February 2005: JIS Q 9100 conformity achieved at Hirata Plant
- March 2007: Capital increased to 70 million yen
- August 2008: Integration of Kawaguchi Plant, first Iwatsuki Plant, and second Iwatsuki Plant; construction of new Iwatsuki Plant completed
- October 2008: Integration of Hirata Plant and Tokiwa Plant
- March 2012: JIS Q 9100 conformity achieved at Iwatsuki Plant
- August 2015: Capital increased to 73 million yen
- October 2016: Capital increased to 76 million yen
- September 2019: Capital increased to 82 million yen
- November 2019: Hirata factory was certified by Nadcap(welding)

■ Main Customers

SEN Corporation, an SHI and Axcelis Company
NEC Access Technica, Ltd.
NEC Engineering, Ltd.
Kawasaki Heavy Industries, Ltd.
GLORY LTD.
SHIMADZU AEROTECH MANUFACTURING, INC.

Fujitsu Limited
etc.

Main Equipment Possessed

November 1, 2022
NIKO Manufacturing Co., Ltd.

Type	Equipment Name	Number of Units Possessed	
Programming equipment	CAD	6	
	Automatic Pro	2	
Machining equipment	Sheet metal machining equipment	Shearing	2
		Corner shear	2
		Integrated NC turret punch press and laser machine	1
		NC turret punch	3
		Fiber laser processing apparatuses	1
		BURRY TACK	2
		Parallel grinder	2
		Press (applied pressure: 12 tons to 300 tons) Hydraulic and Servo Presses	20
		Robot bender (applied pressure: 100 tons)	1
		Bender (applied pressure: 25 tons to 300 tons)	16
		Spot welding machine for special manufacturing processes (MIL-STD-6858D)	4
		Spot welding machine	17
		Stud welding machine	2
		Fiber welding system	3
		YAG laser	1
		Welding machine	17
	Machine machining equipment	Electron beam machining tool (vacuum furnace welding)	1
		Tapping machine	11
		Ironworker	1
		Grinder	2
		Surface grinding machine	1
		Crimping machine	2
		Pressure-control-type indentation machine	2
		Blasting machine	1
		Cleaning machine	1
		5-axis machining center	3
		Machining center	2
		Y-axis lathe (turning center)	1
		Wire electrical discharge machine	1
		Lathe	2
		Milling machine	2
		Bandsaw	2
Drilling machine	14		
Inspection equipment	Each 3D measuring machine is fitted with non-contact sensors and is suitable for use with computer aided verification	2	
	X-ray inspection system	1	
	X-ray fluorescence spectrometer (component analysis)	1	
	Fluorescence Penetrant Inspection System	1	
	Roundness measuring instrument	1	
	Blank measuring instrument (infrared red ray)	2	
	Tension tester	3	
	Contact resistance measuring instrument	2	
	Stereomicroscope and similar equipment	4	
	Oscilloscope	1	
	Digital torque meter	2	
	Insulation resistance meter	1	
	Hue- and color-difference meter	1	
	Gloss meter	1	
	Film thickness meter	1	
Digital pressure gauge for leak testing	1
